-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2164

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 7, 13: The phrase "the message system" lacks antecedent basis.

Claims 2-6, 8-12, 14-18: Depend on claims 1, 7, 13 respectively.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 7, 13: Each of claims 1, 7 and 13 have been amended to recite that the message system is separate from the database system. Such a feature was never set forth in the original disclosure and is new matter. The messaging system is the physical system which enables the messaging functionality, which is the network of FIG. 1. No other "systems" are described in the original disclosure which correlate to such a messaging system. Since the database management system (RDBMS) is physically inside of this system, it cannot now be arbitrarily defined as

being separate from the database system. Accordingly, the amended features of claims 1, 7 and 13 are new matter.

Claims 2-6, 8-12, 14-18: Depend on claims 1, 7, 13 respectively.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-18 are rejected under 35 U.S.C. 101 because the claimed invention is inoperable.

Claims 1, 7 and 13: Each of claims 1, 7 and 13 define the message system as being separate from the database system. In such a configuration, the invention is inoperable since the database system would have no access or communication with the message system, thus disabling any possible messaging functionality in the database system.

Claims 2-6, 8-12, 14-18: Depend on claims 1, 7, 13, respectively.

Although no prior art is applied, no indication of patentability is made due to the claimed invention being determined as inoperable.
